The Vessel - MV Coral Seeker

MV Coral Seeker is a 50 ft. Westcoaster built in Western Australia. She is a strong and stable vessel and was first put to use as a Cray fishing boat. Since then she has undergone a major refit with the addition of a spacious sun deck and large rear dive platform, transforming her into the perfect day charter and liveboard dive vessel.

There is plenty of storage space for dive or snorkel gear. Make yourself comfortable in the air conditioned cabin or take a seat out in the fresh air as MV Coral Seeker cruises along effortlessly at 17 knots thanks to the grunt of the 600hp Yanmar.
