

TROPICAL COAST GROUP

- The T.C. Group of companies are an award winning building and construction group based in Far North Queensland.
- We service the Queensland outback, tropical coast and remote islands and specialise in climate controlled, energy efficient design and build. We partner with industry experts in ecological building design and have accredited GreenSmart professionals on our team.
- Our portfolio includes demolition and asbestos removal projects, residential homes, environmentally sensitive housing, schools, high value industrial buildings, shopping centres, restaurants, civil projects, agricultural sheds, hotel renovations and government building restorations.
- We understand the need for superior customer service and operate plant hire, raw materials, building supplies and landscaping support businesses within the T.C. Group. We can guarantee complete reliability and full service capability within our industry.

We pride ourselves in being the partner of choice for many Queensland businesses and Government agencies.

The recently completed mission@mission stage one is a perfect example (picture above). This three storey lift-accessed luxury suite of six prestige apartments won the Queensland Master Builders Association Award in October 2010.

During 2010 we launched our new eco-friendly building brand and are actively working to improve energy efficiency and climate control in all our building projects. We specialise in building up to 10 star energy efficient homes within as little as 10 weeks.
